

The Sinclair Station ownership's decision to force their stations to air an anti-Kerry documentary just days before the election is disgusting. It is an act of total disregard for the laws that require equal time to be given to candidates.

They are interfering with the results of one of the most important Presidential election in years. This action speaks volumes for the need to strengthen media ownership rules.

I demand that Sinclair stations air "Going Up River," as a matter of fairness and decency if you fail to act against them. I and my friends are filing a protest with the FCC for an inquiry and hopefully an end to license to allow Sinclair to own broadcast stations.

This is another example of how right-winged conservatives such are trying to win at what ever cost to the American people and our right to a FAIR election. Their blatant disregard for the laws of this country is disgusting.

Thank You for your help.
